Tools & Platforms: Git, GitHub, VS Code, Webpack, Shopify, Wordprace, Firebase, AWS, Docker (basics), Vercel, Netlify

Core Concepts: Data Structures, Algorithms, OOP, Functional Programming, Software Testing (Jest, Mocha), Design Patterns

PROJECTS

CreateX Studios Contact Platform

- Developed a professional contact and service inquiry platform with React and modern UI/UX design
- Implemented form validation, responsive design, and smooth user interactions
- Deployed on Netlify with optimized performance and seamless navigation
- **Live Demo:** https://createxstudios.netlify.app/

Salon Services Web Application

- Built a comprehensive salon services platform using React with service listings and booking functionality
- Implemented responsive design for mobile and desktop users with intuitive navigation
- Integrated modern styling with Tailwind CSS and optimized performance

• **Live Demo:** https://salon-services.netlify.app/

PORTFOLIO

Rubik's Cube Interactive Portfolio

- Created an innovative 3D Rubik's Cube portfolio website showcasing projects in an interactive, engaging manner
- Utilized advanced HTML5, CSS3, and JavaScript to implement 3D transformations and animations
- **Live Portfolio:** https://rubiks-cube-portfolio.netlify.app/

Professional Portfolio Website

- Designed and developed a professional portfolio website showcasing skills, projects, and achievements
- Implemented responsive design, smooth scrolling, and modern UI components
- Features project showcase, about section, skills display, and contact form
- **Live Portfolio:** https://portfolio-pallab.netlify.app/

GITHUB REPOSITORY

GitHub Profile: https://github.com/PALLAB2005 – Active developer with repositories for web applications, projects, and coding practice. Contributions to responsive design and full-stack development.

CERTIFICATIONS & LEARNING

- Introduction to Cybersecurity
- Introduction to Generative AI
- Artificial Intelligence Fundamentals
- Full-Stack Web Development (in progress)

PROFESSIONAL SKILLS

Problem-solving, Code Review, Debugging, Performance Optimization, API Design, Testing (Unit & Integration), Agile Methodologies, Cross-browser Compatibility, Git Workflow, Documentation, Team Collaboration, Self-motivated Learning
